

Turn Back the Clock at Skin Renewal

Dr Maureen Allem is a Medical Doctor with a special interest in anti-aging procedures, skincare and weight loss. She is also the Founder and Medical Director of Skin, Body & Health Renewal and the Oasis Spas. www.skinrenewal.co.za.

3D LIQUID FACELIFT:

At Skin Renewal our Medical Doctors offer the most effective non-surgical procedure for turning back the clock with the 3D Liquid Facelift. This procedure is non-surgical, safe and can be done in a lunch hour.

It restores lost volume and returns the face to its youthful, multi-dimensional proportions in a natural looking way.

To start the Doctor will carefully examine and diagnose the patient's unique and often imbalanced aging characteristics. This ensures that volume is used to lift the face, and the natural facial balance is preserved. Next, the face is mapped to identify the negative areas that need to be counter-balanced with volume. The face is then lifted by the strategic placement of volume using hyaluronic dermal fillers that contain a high viscosity and elasticity which holds the soft tissue in position. To soften frown lines on the brow and reduce the appearance of crow's feet, a wrinkle-relaxing treatment in the form of a natural protein called Botulinum toxin is used. With Botulinum injections, the brow and temples can be elevated, eyes can be opened and lids lifted.

The results from this 3D technique plus the Botulinum injections are immediate and impressive (whilst staying subtle and natural looking). A single treatment has the ability to take up to ten years off a person's appearance!

NEW TREATMENTS AVAILABLE:

A revolutionary new treatment available at Skin Renewal clinics include embedded threading. By placing dissolvable threads into the deep layers of the skin, this treatment gives the face a lift, whilst stimulating new collagen production rather than volume restoration. It offers an effective alternative to surgical face lifts, without the downtime.

Due to the intricacy of performing any of the above treatments it is essential you consult with a reputable, highly trained and qualified Medical Doctor. You can trust Skin Renewal to offer you the very best treatment and service to renew your skin!

Your house is where you live, your body a lifelong home.
Invest in yourself.
