

Treating stretch marks with Skin Renewal

The first step of my Skin Renewal journey was to meet with one of their doctors to discuss my concerns and to map out a treatment plan going forward. Dr Chrisna Keyser and I decided on fortnightly treatments consisting of Carboxytherapy, [Laser Genesis™ Rejuvenation](#) and [Titan™ Skin Tightening](#). I also received the **Skin Renewal Brightening Cream**. Packed full of exfoliating enzymes, I applied this cream once a day to my stomach to prepare the area to receive laser treatment.

Now, onto the treatments...

[Carboxytherapy](#) has been dubbed the biggest beauty breakthrough since injectable fillers. It is a skin rejuvenation therapy that is safe, minimally invasive and is proved to effectively treat wrinkles, cellulite and stretch marks.
