

My Second Fraxel Dual Laser Treatment – Before & After

March 18, 2016

Well gals, I can't begin to tell you how impressed I am with the **Fraxel Dual Laser treatment** that I've been doing to **get rid of my pigmentation/ melasma**.

For years I've suffered with very prominent pigmentation on my whole face, specifically on my forehead and have never found anything that worked. That was until I had my first Fraxel Dual Laser Treatment at Skin Renewal in Irene.

Earlier this month, I went for my second treatment and today, four weeks following my laser, I've got the before and afters to share with you...

It's been 11 weeks since I first started **Fraxel Dual Laser**, and can honestly tell you gals that it's the best thing in the world! The results so far have blown me away, and this coming from someone who had melasma for about 10 years and had thought that I would have to live with it for the rest of my life.
