

Dr Bianca le Feuvre

Dr Bianca Le Feuvre is a GP with a special interest in Aesthetic, Anti-Ageing & Cosmetic Medicine who joined the Skin Renewal team in March 2010. She is based in Cape Town and works between the Claremont, Cape Quarter and Constantia branches. She is a member of The Aesthetic and Anti-aging Medicine Society of South Africa.

Our Celebrity Laser!

Have you ever wondered how Hollywood stars look as beautiful and radiant as they do at their ages?

Skincare expert David Colbert, who has a celebrity following which includes Angelina Jolie, Heidi Klum and Jennifer Lawrence sheds some light on the issue. Dr. Colbert swears by 'The Triad Facial', which consists of three important aspects. Those are exfoliation, Laser Genesis and Mesotherapy. At Skin Renewal, this package is called The Glow Package and has been offered to clients for the past 10 years.

Exfoliation is the first step to treating the outer layer of the skin by removing excess dead skin cells from the surface. By removing this layer with Microdermabrasion, it allows the laser, which is the second step in the process, to do its magic and it allows products applied post treatment to penetrate better.

The Laser Genesis procedure treats the upper dermis to stimulate collagen, the building block of the skin. It

also improves elasticity, skin texture and uneven texture caused by ageing, sun damage or acne scars.

The final step is a "no needle, Mesotherapy" treatment, which infuses a cocktail of 6 peptides into the dermis to further stimulate collagen.

The Glow Package is an effective treatment assisting the skin to function optimally. The face, neck and décolleté areas are treated and it's suitable to all skin types.

For the beauty secrets of the superstars, book a consultation with one of the medical doctors at Skin Renewal on **0861 7546 72** for a custom designed package.

Special discount packages for 6 to 10 treatments are offered for treatments paid for up front.
